

To ensure the best user experience we recommend you update your Google Chrome browser settings to the following.

Recommended Browser Settings

1. From the Menu bar , click **Settings**
2. Scroll down and click Show **Advances Settings**
3. Locate the **Privacy** section and choose **Content Settings...**
 - a. Note – Most users will not see this setting until they expose advanced settings; have the user scroll to the bottom of the page, and if there is a link that says “Show advance settings...” ask the user to click on it
4. In the **Content settings** overlay ensure that the following options are set:
 - a. **Cookies: Allow local data to be set** (recommended)
 - b. **Cookies:** The option for **Block third-party cookies and site data** is unchecked
 - c. **JavaScript:** Allow all sites to run JavaScript (recommended)
 - d. **Pop-ups:** add exceptions for the following:
 - i. Enter texanscu.org
 - ii. Enter docuhost-net.com (e-Statements)
 - e. Set Behavior to **Allow**
 - f. Click **Done**
5. Click **Done**

Privacy Exceptions

If you do not wish to “Allow local data to be set” you may add a specific address to the exception list.

1. From the Menu bar , click on **Settings**
2. Select **Show Advanced Settings**
3. Under **Privacy** section, click **Content settings**
4. In the dialog box that appears, click **Manage exceptions**
 - a. In the pop-up, type the addresses below for the services that you would like to use.
 - i. Enter texanscu.org
 - ii. Enter docuhost-net.com (e-Statements)
5. Set Behavior to **Allow**
6. Click **OK**
